FULL STACK SOFTWARE DEVELOPER | [Portfolio](#) | [Github](#) |
Phone: 0412899465 | Email: contact@blakeyeboah.com

OBJECTIVE

I am a full stack software developer who loves to build applications from static websites to social networks. I utilize a variety of languages and frameworks to build effective web solutions.

SKILLS

Front End:

- HTML
- CSS
- JavaScript
- Sass (Pre-processor)
- React (JS framework)
- MobX (App Level State)

Backend:

- Node.js
- Express.js
- MongoDB

Other:

- Git & GitHub
- Yarn
- Typescript

Qualities:

- Strong Communicator
- Ability to work in a team
- Fast Learner

EDUCATION

- Self-Taught

PROJECTS

DevNetwork

A full stack web application with authentication, post functionality, messaging functionality and more built on the MERN stack. In other words, this web app is a social network for developers to share their projects and socialize with other developers.

[Code](#) --- [Preview](#)

Career Busters

A responsive website for a future business called career busters that has a great user experience (UX) designed to engage users. It has animations, clean transitions and a great Ui that emphasizes the branding of the business.
